Course Outline

Week	Course content	Remark
1	Introduction	
2	Categories, manufacturing and materials of living goods	
3	Bath products - Case Studies	
4	Bath products - design exercises	
5	Bath products - design implementation	
6	Dining eating - Case Studies	
7	Dining eating - design exercises	
8	Dining eating - design implementation	
9	Midterm	Publication
10	Home cleaning - Case Studies	
11	Home cleaning - design exercises	
12	Home cleaning - design implementation	
13	Home lighting - Case Studies	
14	Home lighting - design exercises	
15	Home lighting - design implementation	
16	Internationally renowned life Product Brand	
17	Final report and assessment	Achievements Exhibition
18	Final Exam	

Resources Required (e.g. qualifications and expertise, instrument and equipment, etc.)

PC, digital textbook presentations, the school digital teaching platform, design case.

The unit learning single other supplementary information will be described in the classroom.

Course Requirements and Suggested Teaching Methods

In order to cultivate professional design literacy, students should submit the assignments according to the regulated deadline and measure. Delayed assignments will be counted as 0.

Irregular calls in classes; for cutting classes without specific reasons for at least four times, students will not obtain the credits from the course.
